## **DETAILED ACTION**

### ***Examiner's Amendment***

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Cancel claims 13 – 28.

### ***Election/Restrictions***

2. Claims 13 – 28 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 20 September 2004. *MPF 1302,04(C)*.

3. Applicant's election without traverse of claims 1 – 12 in the reply filed on 20 September 2004 is acknowledged.

4. This application is in condition for allowance except for the presence of claims 13 - 28 to an invention non-elected without traverse. Accordingly, claims 13 – 28 have been cancelled.

### ***Allowable Subject Matter***

5. Claims 1 – 12 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance: Puchner in the U. S. Patent 6,358,806 B1; figures 1 – 7 and related text, substantially discloses the claimed invention. However, Puchner does not teach or fairly suggest wherein the second semiconductor layer formed in the source and drain regions of the PFET is at a different distance from that of the NFET. Puchner forms the second semiconductor layer on the source and drain of the NFET and PFET at the same distance. Therefore the claimed invention as a whole is neither anticipated nor rendered obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
